

GETTING STARTED WITH DRIVEWORKS SOLO

The **Leading Solution** for **Design Automation**

WHAT IS DRIVEWORKS SOLO?

REDUCE COSTS AND RESPOND QUICKLY TO SALES INQUIRIES

This design automation tool reduces the cost of custom designs, allows your sales team to respond quickly inquiries, and enhance product quality & reduce repetitive tasks.

*It allows design engineers and product designer to quickly and easily create and configure custom products inside SOLIDWORKS. All **DriveWorks Solo licenses are available as Fixed licenses that can be activated on individual machines.** Access DriveWorks Solo by using the add-in inside of SOLIDWORKS.*

DRIVEWORKS FACTS

BOOST QUALITY: Based on rules, calculations and logic, improving the quality of outputs, this reduces costly errors & improves reputation.

RESPOND FASTER, SELL MORE: Respond to customers quicker than competitors. Win more orders, with automatic quote generation.

FASTER IMPLEMENTATION: Easy to set up configurators with no need for programming skills or consultations.

HOW DOES SOLO EXPAND ON DRIVEWORKS XPRESS?

DriveWorks Solo is a standalone application, accessed from the SOLIDWORKS task pane. Once you access the administration tool, you can create custom forms that your users interact with. **DriveWorks Solo lets you use simple tables to store tabular information.** Now you can quickly write rules to define the color of your models without memorizing the RGB codes! Finally, it gives you the power to modify the scale of your views and the locations of your dimensions.

WHERE TO START

For licensing information, you can reach out to InFlow Technology's team of DriveWorks Experts, but before doing that, did you know that you can request a **FREE 30-day trial license**?

[DOWNLOAD THE SOLO TRIAL](#)

It is recommended that, before starting any trial, you **review the free online training, getting started webinars, how-to videos** and more are available in the DriveWorks Community to help get you up and running quickly.

Continuing a DriveWorksXpress project in DriveWorks Solo is easy too, you can simply choose the existing project to open within DriveWorks Solo, and then continue with your configuration based on what you already have.
